

MINUTES OF MEETING OF WATER USERS DIVERTING FROM MONROE  
CREEK, SEVIER COUNTY, HELD AT MONROE, UTAH ON MAY 5  
1939, at 8:00 o'clock P.M.

---

The meeting was called and due notice given by the State Engineer for consultation with water users, as provided in Section 100-5-1, Revised Statutes of Utah, as amended by Session Laws of Utah 1935.

Mr. Jerman of the State Engineer's office was in charge of the meeting, and explained the reason therefor.

Mr. Erickson made an explanation of the wishes of the water users, that said users be required to maintain measuring devices that will properly measure the delivery ; that the petitioners do not now ask for a commissioner to be appointed by the State Engineer. All parties expressed satisfaction with the work of Mr. Martin Larsen as a commissioner.

A discussion was had relative to the location of the weirs and points of diversion.

Mr. Jerman explained the law relative to the appointment of a Water Commissioner and discussion was had on this point.

It was moved by Mr. Bohman that the State Engineer be asked to table action on the petition of the water users, and that the users make an attempt to solve their own problems. The motion carried unanimously.

It was moved by Mr. Jones that a committee be named consisting of one member from each of the six ditches to work on the problems at hand; and that each ditch name its member. The motion was seconded by Mr. Bohman and carried unanimously.

The following were named for the committee by the different ditch organizations represented:
